

HPI Borrower Templates

Hatfield Philips Launches European Borrower Financial and Property Templates

Hatfield Philips International has launched the first of a series of standardisation initiatives to the commercial mortgage servicing. The launch of the new HPI Borrowers Financial and Property Template was developed by Hatfield Philips to provide industry recognized information guidelines for borrowers to report consistent and quality financial and property information with ease.

The new borrower templates will support borrower and servicer efficiencies, while supporting market standard and consistent information to lenders and investors. says Clarence Dixon, Managing Director of Hatfield Philips International.

Hatfield Philips International is constantly looking at new ways to support our client and borrower partners.

The template which can be downloaded via the HPI website, provide a standardised solution which is secure, efficient, easy to complete and allows interfacing from most property management systems. In addition, the HPI Borrower Template is provided in 5 languages for your ease. Please download the file you require in your local language and contact us at borrower@hatfieldphilips.com for a password access.
